Chamfer Collar HT 800 WP

GUHRING - YOUR WORLD-WIDE PARTNER

Chamfer Collar HT 800 WP – the simple solution for perfectly chamfered holes

The new chamfer collar extends the application possibilities for the HT 800 WP interchangeable insert drilling system for the production of holes and perfectly chamfered hole entries in one machining step. It is available for all holder sizes in the diameter range from 14 to 25 mm.

In addition, there is a choice of three different chamfer inserts for chamfer angles from 60° to 120°, with which the chamfer collar can be adapted to the desired countersink

Your advantages:

- ⇒ one-piece chamfer collar for simple handling: Push-on, position and clamp – finished!
- ⇒ integrated chip deflector: no jamming of chips between chamfer collar and holder!
- ⇒ countersink angle 60°/90°/120°: Simply select corresponding chamfer inserts!
- ⇒ complete chamfer collar TiN-coated: Optimal corrosion protection
